

Richland Public Library
CHILDREN'S PROGRAMMING POLICY

Children's safety is of the utmost importance to the director and the board of trustees of the Richland Public Library. Therefore, Richland Public Library will observe the following guidelines for all children's programming sponsored by the library:

All library programs involving children will have at least 2 unrelated adults (18+) present who have been approved by the director and/or board of trustees.

An exception to this rule can be made as follows:

High School students who are 16 years or older may offer programs for children if they are accompanied by an unrelated adult who is over the age of 21 and both have been approved by the director and/or board of trustees.

Written and approved 6/13/12
